

Cell Phone and PDA Devices for Mail and Calendar

For light devices like cell phones that support text only web browsing (WAP), configure the URL in your settings to use the following link (note the 'S' in https)

<https://afhe-ex.afhe.ualberta.ca/oma>

For BlackBerry devices, select the option 'Already have a email address'. Then select the option to use the Outlook Web Access as the access mechanism. Then use this URL.

<https://afhe-ex.afhe.ualberta.ca/exchange>

Devices based on Windows PocketPC 2002, 2003 and 2003 2nd edition as well as Phone PDA's that support the 'Active Sync' use this configuration:

afhe-ex.afhe.ualberta.ca
(ensure the check box to use SSL is checked)

username:

password:

Domain: afhe (this will be the login domain)
